Cleanliness Drive: A Step towards a Cleaner Tomorrow

Dear Students, Parents, and Staff,

We are thrilled to announce the commencement of a school-wide cleanliness drive, a commendable initiative undertaken by our newly formed Student Council. This endeavour is aimed at fostering a clean and hygienic environment within our school premises, thereby inculcating the significance of cleanliness among our students.

As a prelude to this campaign, students from Grades 6 to 9 will actively participate in a cleaning drive every Friday during the Assembly period. Our diligent Student Council will meticulously plan the cleaning activities, ensuring optimal utilization of resources and time. The school administration will provide all essential cleaning materials and prioritize the safety of our students throughout the drive.

We firmly believe that this initiative will not only contribute to a cleaner and healthier school campus but will also cultivate a sense of responsibility and environmental consciousness among our students. By working together, we can create a conducive learning environment that promotes both physical and mental well-being.

We urge all students to participate enthusiastically in this noble cause. Let us join hands to transform our school into a pristine and inspiring space.

Thank you for your unwavering support.

Regards
RKLGIS

Note: With immediate effect it is compulsory for all parents and guardians to carry an escort card when visiting inside our school premises.
